HCA Healthcare places a premium on superior nursing care because it differentiates us and drives our ability to deliver excellent patient outcomes. We are committed to being a desirable career destination by investing in our nurses and helping them develop professionally and individually. To support nurses as they care for and about patients, we consistently invest in technologies, capital improvements, infrastructure and clinical education. We also prioritize our focus on safety, quality and experience—the three things that matter most to our patients. If we continue to do all of these things, we will continue to make HCA Healthcare a place where nurses want to be and a place where our nurses can create healthier tomorrows for every patient we serve—and for each other as well.
